Parent Feedback for the Reopening of School

District and school leaders have been working diligently in planning for a common-sense approach to the return to school on August 4. As part of the process, we are asking for your feedback via an online [Parent Survey](#). Please complete the survey by June 21. Your input will be helpful as we make the final decisions about "how" students will go back to school this fall. We will share details about the reopening plan in July.

Summer Camps and Learning Resources

Despite the COVID-19 situation, our schools are finding creative ways to keep children engaged during the summer break. We are offering [online summer resources](#), as well as summer camps at some of our campuses.
